Set Up Your Beat Licenses

Review the five license types and configure how your first beat can be downloaded or purchased. Follow the steps below and compare each screen with the current version of your BeatKongs producer dashboard.

Step-by-step instructions

1. Open contract templates

Navigate to Music → Licensing Contracts to review the available Free Beat, Basic, Premium, Unlimited, and Exclusive contract templates.

2. Understand each license

Free is for a free download; Basic, Premium, and Unlimited are paid tiers with terms defined by their templates; Exclusive is a distinct sale type that can lock out further availability. Do not assume the same rights apply to every producer.

templates, set prices and files, save and check the license modal. Replace this preview image with the real BeatKongs YouTube embed once the video is ready.

4. Enable only the licenses you offer

Review each license row’s availability toggle, price, contract template, and delivery file. Configure each one intentionally.

5. Verify contract text

Read the producer-specific contract template before accepting purchases. Reset to Default is available if you need the baseline version, but avoid resetting customized text without a backup.

Important: Contract language controls the rights granted to buyers. Review the terms carefully before enabling a license.

If something does not look right

Check that you are signed in to the correct producer account and that your plan includes the feature. Save any changes, refresh the relevant page, and compare it with the screenshots in this guide. If the problem continues, use the BeatKongs Help Center to submit a support ticket with the page name, the action you tried, the error message, and a screenshot. Never include passwords, API keys, or payment credentials.
