Preview Your Website

Inspect your producer website as a visitor before sharing it publicly. Follow the steps below and compare each screen with the current version of your BeatKongs producer dashboard.

Step-by-step instructions

1. Open your live website

Use View Live Website from the producer dashboard. Open it in a separate tab so you can return to the dashboard easily.

3. Check mobile presentation

Use a phone or browser responsive preview to test smaller widths. Look for clipped menus, oversized images, and buttons that cannot be tapped.

5. Check checkout readiness

If selling paid beats, verify that your payment methods are connected and checkout can be tested safely. Avoid placing unintended live charges.

Important: A successful page load is not enough—test the navigation, beat player, license modal, and checkout path.

If something does not look right

Check that you are signed in to the correct producer account and that your plan includes the feature. Save any changes, refresh the relevant page, and compare it with the screenshots in this guide. If the problem continues, use the BeatKongs Help Center to submit a support ticket with the page name, the action you tried, the error message, and a screenshot. Never include passwords, API keys,
