Launch Your Producer Website

Use a final readiness check before sharing your BeatKongs website with fans and customers. Follow the steps below and compare each screen with the current version of your BeatKongs producer dashboard.

Step-by-step instructions

1. Finish the essentials

Confirm your producer profile, website theme, homepage, and navigation are complete. Remove demo text and broken placeholder images.

Screenshot to add: Completed producer homepage

Screenshot to replace: Completed producer homepage. Replace the image URL with your actual BeatKongs screenshot before publishing.

2. Review your beat catalog

Check that each published beat has artwork, playable audio, accurate details, and the intended licenses.

Screenshot to replace: Manage Beats and live Beat Browser side by side. Replace the image URL with your actual BeatKongs screenshot before publishing.

3. Confirm payment readiness

If you offer paid beats, verify Stripe and/or PayPal connections and inspect the customer checkout experience.

Screenshot to add: Connected payment status and checkout

Screenshot to replace: Connected payment status and checkout. Replace the image URL with your actual BeatKongs screenshot before publishing.

4. Review the domain

Confirm your BeatKongs subdomain works. If your plan includes a custom domain, review Domain & SSL and verify the domain and certificate are active before promoting it.

Screenshot to replace: Domain & SSL settings. Replace the image URL with your actual BeatKongs screenshot before publishing.

5. Test from a visitor perspective

Open the website in a private browser session and on mobile. Test menu links, search, beat playback, license selection, and forms.

> **Screenshot to add:** Visitor QA checklist and mobile site

Screenshot to replace: Visitor QA checklist and mobile site. Replace the image URL with your actual BeatKongs screenshot before publishing.

6. Share your website

Once everything is working, use your public website URL in your social profiles, email signature, and promotional materials.

> **Screenshot to add:** Public website URL and social share example

Screenshot to replace: Public website URL and social share example. Replace the image URL with your actual BeatKongs screenshot before publishing.

> **Important:** Do not advertise the site until customer-facing purchasing and delivery have been tested.

If something does not look right

Check that you are signed in to the correct producer account and that your plan includes the feature.

Save any changes, refresh the relevant page, and compare it with the screenshots in this guide. If the problem continues, use the BeatKongs Help Center to submit a support ticket with the page name, the action you tried, the error message, and a screenshot. Never include passwords, API keys, or payment credentials.
