How to Approve or Moderate Reviews

What to know

The Reviews area is the producer-facing place to manage customer review submissions. Exact moderation states and buttons require verification.

Steps

1. Open Feedback → Reviews.
2. Select the relevant submission and inspect available moderation controls.
3. Confirm the resulting visibility on the published website.

Review note: This article is based on BeatKongs product decisions and known dashboard sections. Confirm exact labels and feature availability in the current interface before publishing.

Need help?

If the described option is missing, record the affected page, your workspace, and the expected behavior. Use the Report Issues option in your producer dashboard to contact BeatKongs Support.
