What Happens When Your Trial Expires?

What to know

- Open Settings → Account to review subscription status, plan changes, and payment history. The available options depend on your account state.
- Plan entitlements can control Blog, Newsletter, Feedback, Customers, merchandise, advanced beat statistics, custom domains, beat limits, and removal of BeatKongs footer attribution.
- The planned default trial period is 14 days; verify the actual trial dates shown in your account before relying on them.
- After a trial ends or payment is not resolved, the dashboard is designed to restrict access except for Account → Profile Settings, Change Plan, Payment History, and Logout.

Step-by-step

1. Open Settings → Account and review your current subscription or trial status.
2. Check the displayed plan, payment history, renewal date, and available plan-change options.
3. Confirm the consequences of any plan change before submitting it.

Before you finish

Check the result in the current producer dashboard and, where relevant, on the published website. Save the affected page URL and screenshots if you need support.

Publication review: Confirm the exact labels and current feature behavior against the live
