How to Save Your Website Changes

Learn how to Save Your Website Changes in your BeatKongs producer website using Kong Builder. Follow the steps below in your own producer dashboard and check the result on the visitor-facing website before publishing.

Before you begin

Sign in to your BeatKongs producer account and open **Website → Edit Website**. Work on a page you can safely test. Builder controls may vary by theme, selected element and plan.

Step-by-step instructions

1. **Step 1.** Finish editing the current page and review visible changes.

> SCREENSHOT TO ADD: Screenshot needed: Save button in the top toolbar

Screenshot to capture: Save button in the top toolbar.

2. **Step 2.** Select Save in the Builder toolbar and wait for any confirmation or completion indicator.
3. **Step 3.** Open the page preview or live website to verify the saved result.

> SCREENSHOT TO ADD: Screenshot needed: Live page showing the saved change

Screenshot to capture: Live page showing the saved change.

4. **Step 4.** If the live page looks old, refresh and investigate caching before editing again.

Important: Saving the page and checking the public site are separate steps. Always verify both.

How to confirm it worked

Save the page, open the visitor-facing website, refresh it, and inspect the changed section on desktop and mobile. If the task involves a link, form, player, menu or other interactive feature, test that interaction directly on the live site.

Troubleshooting

- **Cannot find the control?** Select the intended element first. Some settings only appear for certain components, themes or plans.
- **Change did not appear?** Check that the correct page was saved, refresh the live page, and check whether caching is showing an older version.
- **Mobile layout looks wrong?** Reopen device preview and inspect the affected element’s width, spacing and visibility.
- **Feature is missing or not working?** Avoid deleting working content. Use Report Issues from your producer dashboard and describe the page, control and expected result.
