How to Configure Product Display Components

Learn how to Configure Product Display Components in your BeatKongs producer website using Kong Builder. Follow the steps below in your own producer dashboard and check the result on the visitor-facing website before publishing.

Before you begin

Sign in to your BeatKongs producer account and open **Website → Edit Website**. Work on a page you can safely test. Builder controls may vary by theme, selected element and plan.

Step-by-step instructions

1. **Step 1.** Select the product display or commerce module if your current plan and theme include one.

> configuration

Screenshot to capture: Product display component configuration.

2. **Step 2.** Inspect which products or collections the component can show.
3. **Step 3.** Configure the available display options without changing unrelated checkout settings.

> SCREENSHOT TO ADD: Screenshot needed: Live product card with working destination

Screenshot to capture: Live product card with working destination.

4. **Step 4.** Test product links, pricing and cart behavior on the live storefront.

Important: Product selling may be plan-dependent and is separate from beat licensing.

How to confirm it worked

Save the page, open the visitor-facing website, refresh it, and inspect the changed section on desktop and mobile. If the task involves a link, form, player, menu or other interactive feature, test that interaction directly on the live site.

Troubleshooting

- **Cannot find the control?** Select the intended element first. Some settings only appear for certain components, themes or plans.
- **Change did not appear?** Check that the correct page was saved, refresh the live page, and check whether caching is showing an older version.
- **Mobile layout looks wrong?** Reopen device preview and inspect the affected element’s width, spacing and visibility.
- **Feature is missing or not working?** Avoid deleting working content. Use Report Issues from your producer dashboard and describe the page, control and expected result.
