What Happens When You Change Themes?

This guide explains what Happens When You Change Themes? using the BeatKongs producer dashboard.

Where to go

Website → Themes

Steps and key details

1. Treat a theme change as a design change, not a guarantee that every previous customization carries over.
2. Before switching, record important page content and existing navigation/footer choices.
3. After switching, check pages, header/footer menus, Beat Browser, and mobile layout.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the
