Understanding the Media Library

This guide explains understanding the Media Library using the BeatKongs producer dashboard.

Where to go

Website → Media Library

Steps and key details

1. The Media Library organizes uploaded images and files into folders.
2. Use breadcrumbs to navigate folders, search to find files, and the upload area to add new media.
3. Individual media cards offer management actions; check references before deleting files used on live pages.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant

dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.

Review note: Some screens may change during platform development. Verify the current controls before publishing this article.
