How to Upload a New Beat

This guide explains how to Upload a New Beat using the BeatKongs producer dashboard.

Where to go

Music → Add Beat

Steps and key details

1. Open Add Beat.
2. Complete Details, Media, Licenses, SEO, Advanced and Custom Fields as applicable.
3. Save the beat only when the required information and files are ready; saved beats count toward your plan limit.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.
