How to Edit an Existing Beat

This guide explains how to Edit an Existing Beat using the BeatKongs producer dashboard.

Where to go

Music → Manage Beats

Steps and key details

1. Find the beat using search or filters and open its edit view.
2. Change the relevant Details, Media, Licenses, SEO, Advanced or Custom Fields information.
3. Save, then check the beat on your live storefront.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.

Review note: Some screens may change during platform development. Verify the current controls
