How to Create and Manage Beat Moods

This guide explains how to Create and Manage Beat Moods using the BeatKongs producer dashboard.

Where to go

Music → Beat Moods

Steps and key details

1. Use Add to create a mood name.
2. Search existing moods and review their beat counts before editing or deleting.
3. Return to the beat editor to apply the mood.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.
