How to Create and Manage Beat Tags

This guide explains how to Create and Manage Beat Tags using the BeatKongs producer dashboard.

Where to go

Music → Beat Tags

Steps and key details

1. Use Add to create a tag.
2. Search existing tags; review Name, Beats and Updated At.
3. Edit or delete carefully if the tag is used by existing beats.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.
