How to Search, Sort and Filter Your Beats

This guide explains how to Search, Sort and Filter Your Beats using the BeatKongs producer dashboard.

Where to go

Music → Manage Beats

Steps and key details

1. Search by title and narrow results with status, beat type, genre, mood, BPM range or tags.
2. Use enabled-license, exclusive-sold and created-date filters where useful.
3. Clear filters when a beat seems to be missing.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.
