Understanding Beat Advanced Settings and Custom Fields

This guide explains understanding Beat Advanced Settings and Custom Fields using the BeatKongs producer dashboard.

Where to go

Music → Add Beat

Steps and key details

1. The beat editor contains separate Advanced and Custom Fields tabs.
2. Review each field in your installed dashboard before changing it; these controls can vary by beat configuration.
3. Save and verify any public-facing result.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the
