How to Configure an Unlimited License

This guide explains how to Configure an Unlimited License using the BeatKongs producer dashboard.

Where to go

Music → Add Beat → Licenses

Steps and key details

1. For a Paid beat, locate Unlimited.
2. Set availability, price, contract template and delivery file.
3. Review the contract wording: the label alone does not define unlimited rights.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.
