How to Set License Prices

This guide explains how to Set License Prices using the BeatKongs producer dashboard.

Where to go

Music → Add Beat → Licenses

Steps and key details

1. Open a Paid beat and review Basic, Premium, Unlimited and Exclusive rows.
2. Set the intended price separately for each available license.
3. Save and confirm the displayed storefront price before accepting orders.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the mismatch to BeatKongs Support.

Review note: Some screens may change during platform development. Verify the current controls
