Understanding Contract Variables

This guide explains understanding Contract Variables using the BeatKongs producer dashboard.

Where to go

Music → Licensing Contracts

Steps and key details

1. Contract templates support variables that are filled using transaction and licensing data.
2. Use only the variables documented or shown in the editor; do not invent placeholder names.
3. Test a sample contract to confirm names, dates, beat information and license details populate correctly.

Before you finish

Save your changes where applicable, then check the result on your live website or in the relevant dashboard list. If a control differs from this guide, use the current dashboard label and report the
